```
    Emi  Ami              G
(1)      I'm not like them

    But I can pretend
    Ami          G
    The sun is gone
         C           Emi
    But I have a light

    Ami          G
(2) The day is done
         C            Emi
    But I'm having fun

    I think I'm dumb
       C          Emi
    Or maybe just happy

    G                E
(R1) Think I'm just happy
    G                Emi

    Emi  Ami             G
(3)      My heart is broke
         C               Emi
    But I have some glue
    Ami          G
    Help me inhale
         C              Emi
    And mend it with you

    Ami              G
(4) We'll float around
         C                Emi
    And hang out on clouds
    Ami               G
    Then we'll come down
         C          Emi
    And have a hangover

    G          E
(R2) Have a hangover
    G          Emi
     Have a hangover
    G          E     G B
     Have a hangover
```
